## Message from the President

Seichi Matsuo, D. Med.  
President of Nagoya University

Welcome to Nagoya University where you can find our faculty and students discussing the world's biggest problems and experimenting in a variety of ways to solve them. Nagoya University's Academic Charter identifies our fundamental objectives.

First of all, like any large comprehensive university, we support the highest levels of research by our faculty and students. Two of our colleagues, Professor Amano and Professor Emeritus Akasaki, accepted the Nobel Prize in Physics in 2014 for their research on the Blue Light-Emitting-Diode.

Second, we seek to provide all those students that pass through our doors with a top-class education through our small class-sizes and an emphasis on practical training in research skills.

Third, Nagoya University seeks not only to pursue knowledge for its own sake but also recognizes this as part of its duty to improve society. Witness the Blue LED, an invention developed on our campus, and which is now used by millions of people in smartphones, television screens, and more energy-efficient lightbulbs.

Finally, Nagoya University is also deeply committed to the process known loosely by the term "internationalization". More of our Japanese students are studying abroad and we are accepting more international students from a wider range of countries. You can also see that we have greatly expanded the available English-taught courses. I hope that you will join us as we seek to make Nagoya University a place where all who come can develop into what we have traditionally called "courageous intellectuals" –people who are uninhibited by internal or external forces as they pursue the goals of research, education, and contributing to society.

## Facts and Figures (2017)

- Established 1871
- **#115<sup>th</sup>** in World and **26<sup>th</sup>** in Asia\*

## About Nagoya University

The origins of Nagoya University date back to its founding as a medical school in 1871. By 1947, the Japanese Government had revised its status to a national university. Today it is a comprehensive university with more than 10,000 undergraduate and 6000 graduate students studying subjects in the Sciences, Engineering, Social Sciences and Humanities. Every year, on average, approximately 1,700 international students are enrolled and 1,000 foreign researchers are welcomed. As a world-class center of research and education, Nagoya University continues to contribute to the accumulation of knowledge and the betterment of society.

## Research Excellence

Faculty at Nagoya University can be found pushing the boundaries of knowledge and improving people's lives through their research.

Dr. Isamu Akasaki  
in Physics in 2014

Dr. Hiroshi Amano  
in Physics in 2014

Professor Akasaki and Professor Amano, for instance, were awarded in 2014 the Nobel Prize in Physics for their pioneering efforts on the Blue Light Emitting Diode (LED).

Nagoya University's surge of progress in research comes from its free and vibrant academic culture and it has been inherited by today's generation.

Other Nobel Laureates:

Dr. Ryoji Noyori  
in Chemistry in 2001

Dr. Osamu Shimomura  
in Chemistry in 2008

Dr. Toshihide Maskawa  
in Physics in 2008

Dr. Makoto Kobayashi  
in Physics in 2008

# The City of Nagoya

The Greater Nagoya Area ranks as one of the world’s most productive economic regions. A large ceramics industry makes its home here, as do companies making automobiles, automobile parts, machine tools and aircraft parts. With all its rich natural and human resources, the region draws numerous companies to house their headquarters and R&D centers here.

- #4 Largest city in Japan with approximately 2.3 million people
- 4 Clear seasons throughout the year
- 6 Subway and 3 railways lines for convenient access

From the 15th floor of the two towers of Nagoya Station, a person looking north can see the **snow**-rimmed peaks of the mountains of Gifu Prefecture. To the south lie the waters of Ise Bay and the **Pacific Ocean**. A variety of parks, such as **Higashiyama Zoo** and Botanical Gardens, offer the perfect place for a person to stroll through the burst of pink **cherry blossoms** in the Spring and contemplate the gradual transition of leaves from red to yellow in the **Autumn**.

- 1.5 hours from **Tokyo** and 30 minutes from **Kyoto** by Shinkansen (bullet train)
- Internationally connected: The Chubu Centrair **International Airport** connects the city to countries around the world.
- Safe and modern** city with deep history and culture.
- Heaven for foodies;** Nagoya city is offering various range of selection of international and mouth-watering local delicacies.

Nagoya City Science Museum is the world’s largest **planetarium** and one of most sophisticated.

# International Programs

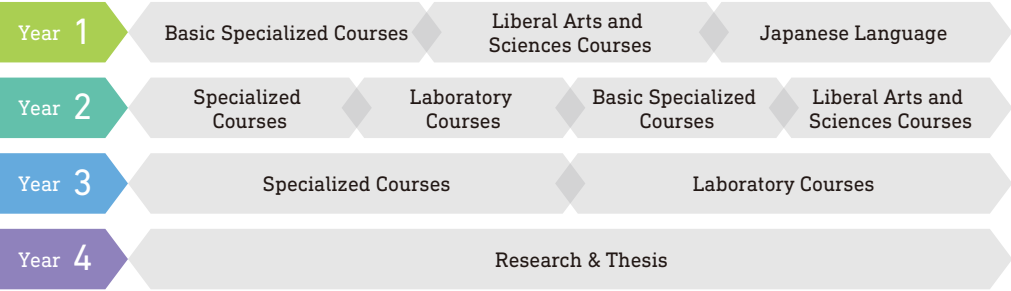

Since 2011, Nagoya University has offered English-taught versions of the regular programs, aiming to provide a world-class education to high-achieving students worldwide, regardless of their Japanese proficiency.

The multi-disciplinary curriculum is designed to cultivate ethical leaders, who are able to develop innovative solutions with strong communication and teamwork skills. The faculty members along with the high quality of the enrolled students, are contributing to raising Nagoya University's educational standards to a level comparable with other top universities worldwide.

- **English-taught programs**
- Students communicate and learn to collaborate with people from a **diverse** range of **nationalities** and **educational backgrounds**
- All students receive **Japanese language education**. Students with high Japanese language proficiency can choose from other languages offered.
- **Small class-sizes** allow for more contact with faculty members and class participation
- Students work with **top Japanese and international faculty** members

## Curriculum

# Student Exchange Program

With over **370** International Exchange agreements, students can experience the academic and cultural life of another country in a **six-month to one-year** study abroad. Read more of G30 students' stories at: [nagoyauniversityao.wordpress.com](http://nagoyauniversityao.wordpress.com)

Studying abroad required a long process, such as filling in application forms as if I were applying to the university again, an interview, and attending preparation classes after school, which were given by the university's study abroad office. It is the small class sizes at Nagoya University that have given me a lot of opportunities. The small classes meant that I was able to consult with professors and also ask for their recommendation letter for scholarships, which I am fortunately receiving. Thanks to this environment, I was able to deepen my understandings in classes and receive practical help. Because of this, I am able to fit in to a new environment and enjoy my study abroad in France.

**Hiroki Nozaki**  
One-year exchange program at University of Strasbourg, France

It feels great to come from one great Asian country, Japan, to another great country, USA. It is an enriching and exhilarating experience to be a part of NYU.

I am eternally grateful to Nagoya University for offering this wonderful opportunity which allows us students to study in another world class university, explore our interests and learn much more than academics. I would suggest my fellow mates to consider this opportunity to explore another university through the student exchange program and have a superlative experience of learning.

**Praachi Jain**  
One-year exchange program at University New York, USA

# Undergraduate Programs

G30 International Programs are full-degree programs taught in English. There is no Japanese proficiency requirement for enrollment. Students must choose their major at the time of application and complete a research project in their senior year for graduation.

## Automotive Engineering

**Mechanical Engineering, School of Engineering** Degree: Bachelor of Engineering  
Focus: Basic Engineering, Core Mechanical Engineering, Advanced Automotive Technology

**Electrical, Electronic/Information Engineering, School of Engineering**  
Degree: Bachelor of Engineering  
Focus: Basic Engineering, Core Electrical, Electronic/Information Engineering, Advanced Automotive Technology

## Biological Science

**School of Science** Degree: Bachelor of Science  
Focus: Molecular, Cellular & Developmental Biology, Biochemistry, Biophysics & Structural Biology, Neuroscience, Plant Science, Genome Science

**School of Agricultural Sciences** Degree: Bachelor of Agricultural Science  
Focus: Applied Microbiology, Biotechnology, Food and Nutrition Sciences  
Applied Biochemistry and Chemical Biology, Applied Plant Sciences

## Chemistry

**School of Science** Degree: Bachelor of Science  
Focus: Nanotechnology, Biological Chemistry, Chemical Synthesis and Catalysis

**School of Engineering** Degree: Bachelor of Engineering  
Focus: Applied Chemistry, Biotechnology

## Fundamental and Applied Physics

**School of Science** Degree: Bachelor of Science  
Focus: Astrophysics, Elementary Particle Physics, Condensed Matter Physics, Biophysics

**School of Engineering** Degree: Bachelor of Engineering  
Focus: Applied Physics

## Social Sciences

**School of Law** Degree: Bachelor of Law  
Focus: Law, Political Science

**School of Economics** Degree: Bachelor of Economics  
Focus: Economics, Business Administration

## Japan-in-Asia Cultural Studies

**School of Humanities** Degree: Bachelor of Arts  
Focus: Modern Literature, Cinema, Modern History

# Graduate Programs

It is very important to know your research topic and find the professors who share the same interests before applying to our university. You must submit a research proposal when applying, and your academic supervisor will guide you in your path to produce an original research.

**M** Master’s Degree  
**D** Doctoral Degree

# Financial Expenses

As a national university, Nagoya University receives much of its funding from the Japanese government. Therefore, tuition fee is the same for all students regardless of nationality. Although some areas of Japan are known for their high cost of living, Nagoya remains affordable.

Application Fee	JPY 5,000
Registration Fee	JPY 282,000 *One-time payment in first year only
Tuition Fee	JPY 535,800 /Year (JPY 267,900 /Semester)

\*As of April 2017, the above fees may change.

## Living Expenses (Monthly)

Accommodation (single room, off-campus apartment)	JPY 30,000 – 50,000 /Month
Food	JPY 30,000
Utilities	JPY 10,000
Telecommunications	JPY 5,000
Insurance	JPY 1,500
Other Personal Expenses	JPY 30,000 – 50,000 /Month
Total	JPY 86,500 – 106,500

\* Personal expenses depend on each student's lifestyle and spending habits.  
The amount suggested above is for reference only.

# Scholarships & Financial Support

## Nagoya University G30 Undergraduate Scholarship

Registration fee	<input checked="" type="checkbox"/> *will be reimbursed after enrollment in monthly installments.
Tuition	<input checked="" type="checkbox"/> *for 4 years of study
Annual stipend	<input checked="" type="checkbox"/> JPY 500,000 /Year

\*As of April 2017, the above fees may change.

## Tuition exemption scheme (applicable after enrollment)\*

G30 students may apply for a tuition fee exemption after enrolling into the program. Successful applicants can receive exemptions between **50 to 100** percent of total tuition.

\*Please note that not all applicants will receive such exemptions due to limited resources.

# Student Services

Studying abroad can be exciting while at the same time challenging. We provide our students with a range of services to assist them during their time as students here at Nagoya University.

## Career Support

Nagoya city is an industrial hub, with more than 100 multinational companies located in and around the Aichi area.

### The Career Service Office

- caters to international students
- organizes campus recruitments
- provides career counselling
- provides internships and part -time opportunities

### Student Tutors

First time in Japan? Worried about the language barrier? Look no further! Student tutors are here to help you get accustomed to life in Nagoya. Each international student has a tutor for the first six months.

### Academic Advisors

Not sure which elective courses are best for you? Having trouble catching up in class? Your academic advisors are always there to guide you in your academic interests.

## Medical Services

- Students are covered by Japan National Health Insurances (JNHI) program
- Free annual health check-up and counseling.

## Accommodation

All G30 students are housed in the Ishida Memorial International Residence. Nagoya University supports all students when they need to search for new housing.

- Guaranteed for the first year
- Single room, fully furnished
- 15 minute walk from Higashiyama Campus
- JPY 25,000 per month (excluding utility bills)
- Each room is equipped with a kitchenette, bath/toilet, microwave, refrigerator, bedding, desk, chair, air conditioner

# #G30StudentCulture

Experience the real Japanese hospitality and prepare to be amazed! Nagoya University offers students various programs to help get to know both local students and the local community. Students have a lot of fun by organizing parties or gatherings in their spare time to share laughter and create stronger bonding.

Students celebrated Sheijinshiki (Coming-Age-Day) and dressed up in formal or traditional attire.

Hanami is one of popular activities organized by students when they enjoy the spring season under blooming sakura trees.

**3,000,000+** items and includes online such as e-books, materials databases and electronic journals.

**50,000+** visitors every year attend Nagoya University Festival organized by students in early June

**100+** student clubs and societies, from cultural to vocational interest and from athletics to academics.

**Short-term home-stay program** to experience daily life in Japan and develop a greater understanding of its culture.

## Academic Calendar (International Programs)
