5. Nagoya University has established the "Security Export Control Regulations for Tokai National Higher Education and Research System" in accordance with Japan's "Foreign Exchange Trade Act." The Security Export Control Office provides guidance and rigorously conducts necessary procedures when we accept international students. Since November 2021, it has been clarified that the 'deemed export control' is also regulated and controlled by the Foreign Exchange and Foreign Trade Act ("FEFTA"), and thus transfer of controlled information, technology, software, and data to anyone even within the territory of Japan is also subject to the FEFTA. As such, to comply with export control regulations, each applicant must submit the 'self-declaration' form (known as 'Declaration of Applicable Specific Categories') through the Online Application System (<https://admissions.g30.nagoya-u.ac.jp>). In addition, some of those admitted might be required to submit the Pledge Form regarding export control compliance, as part of enrollment procedures. Moreover, your research might be regulated if it involves export controlled or restricted activities.
